The Jaguar Xj6 Series 1 2.8 and 4.2 Litre Workshop Manual

Ten years after the launch of the original XJ range in 1968 the Series III was introduced. Three engines were available; the six-cylinder 3.4 and 4.2-litres and the 5.3-litre V12. This was a time when Jaguar's image was at a low point but this was turned round and respect restored within a couple of years. There were range realignments in 1982 and 1983, when the Daimler name was dropped in Europe. The XJ40 replaced the six-

cylinder cars in 1986 although the V12 cars remained in production. This is a book of contemporary road and comparison tests, new model intros, technical data, buyer's guide, buying second hand and long term reports. Models covered include: 4.2, 3.4, 4.2 Automatic, Avon Estate, Daimler Sovereign 4.2, Arden, Jaguar Sovereign 4.2 manual & automatic, Vanden Plas 4.2 manual & automatic, TWR, DMJ, Chasseur.
