

CAR SPEAKER FIT GUIDE READ ONLY

Car Stereo Speaker Projects Illustrated

Save a fortune on great-performing customized car speakers. If done by an installer, custom speakers can run to thousands of dollars and your satisfaction isn't necessarily guaranteed. The best solution is to build your own. *Car Stereo Speaker Projects Illustrated*, by Dan Ferguson, is the one and only illustrated project book that will take you step-by-step through the design and installation of your own customized car speakers, with minimum tools and equipment. You get 20 complete projects covering both front and rear speakers for sedans, pickups, vans, Jeeps, and SUVs. Many of the designs appear nowhere else--and virtually all have tested in use and found to be significant improvements over conventional wisdom. Each project takes you from the circuit schematic to the construction of the enclosure to installing the system in the vehicle. This hands-on guide is loaded with hundreds of digital photos--plus design spreadsheets, Thiele-Small parameter measurement techniques, and examples of speaker design shareware in the Appendix.

The Car Stereo Cookbook

There's only one good way to get the car stereo you want: Build it yourself. Written by a master of audio electronics, *The Car Stereo Cookbook* shows you how to plan your design, choose your components, install them optimally - and save a lot of money! Unlike books that cover only specific systems, the Cookbook shows you how to customize. With the Cookbook, your system will fit your tastes, your budget, and your car or truck. The book is clearly organized by project type - from speakers, subwoofers, and amps to equalizers, bi-amping, and accessories - so you can quickly find the information you need on all the ingredients your dream machine requires.
